Bonnie Doon '59-'79 ... A Reflection

Twenty years ago Bonnie Doon opened with a large student population somewhere near 850. We've come a long way since then. We have grown in numbers (there are now about 1600 of us) and also in the size of the school. When BD opened its doors in the fall of 1958, there was no swimming pool, nor was there a cafeteria where one now exists.

A TRIBUTE TO BONNIE DOON

The halls are filled with mirth and joy,
That emanate from growing boy,
And sprightly girl both bright and coy,
At Bonnie Doon.

Now come the classes through the door
To add to wisdom's mental store
In wondrous land of bookland lore,
At Bonnie Doon.

The classrooms filled are all a stir
With merry pupils, all are there
With smiling face and debonair,
At Bonnie Doon.

Teachers now with solemn face
Arrange the desk, blackboards erase;
Urbane they are with cultured grace
At Bonnie Doon.

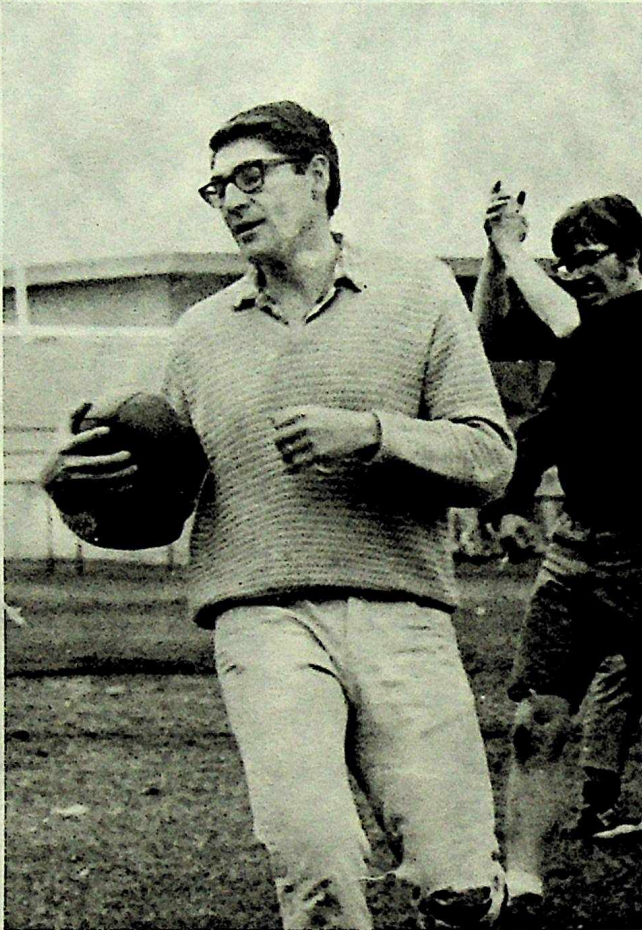

'tis here that friends and love abound,
And loyalty is all around,
Sincerity and truth are found,
At Bonnie Doon.

O, happy throng, whose youthful years
Have tasted not the cup of tears,
That come with life's corrosive fears,
At Bonnie Doon.

These happy years will soon depart
That fill the mind and warm the heart,
And help us all our lives to chart,
At Bonnie Doon.

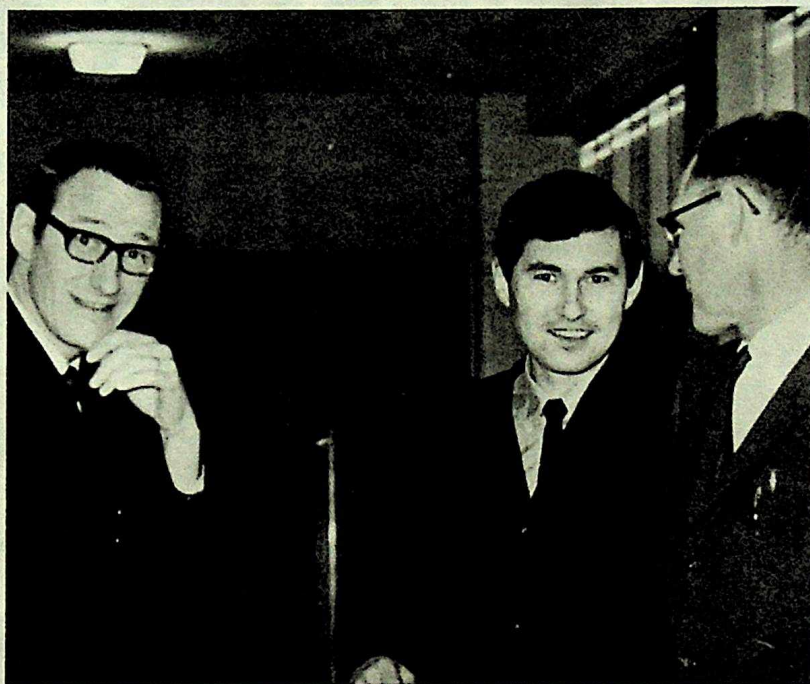

B.D. opened in 1959 under Mr. H.G. Ward. Since then we have had but two other principals - Mr. J.M. Craig, and good 'ol Mr. Klufas.

Vice principalship has changed hands many times - the originals were Mr. Clarke, Mr. Garrett, and Miss L.J. Scott, who until 1968, was given the title of DEAN of girls. Teachers who started teaching at B.D. in the '58-'59 school year (and still remain) include Dr. Bailey, Mr. Dougan, Mr. Marcellus, Mr. Ohrn, and Mr. MacLean.

Mr. Klufas came to our school in 1971, and will leave us at the close of this year. We are very sorry to see him leave after eight years of service to our school.

YOU CAN ALWAYS TELL A FROSH

You can always tell a frosh --
By the cut of his hat,
By the smile on his face --
Like a half-drowned rat.

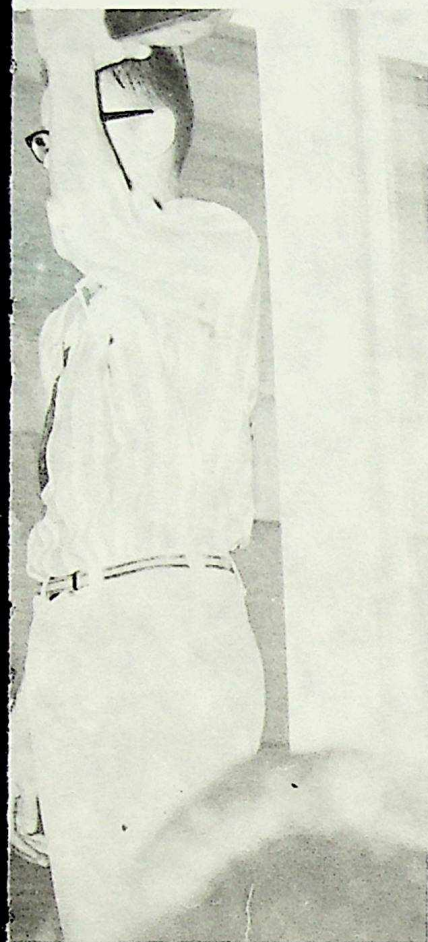

You can always tell a frosh --
Only they buy football tickets;
By the way they whistle songs
Made famous by the cricket.

You can always tell a frosh --
By the way they ask directions;
By the way they cannot find their class
That's taught in sixteen sections.

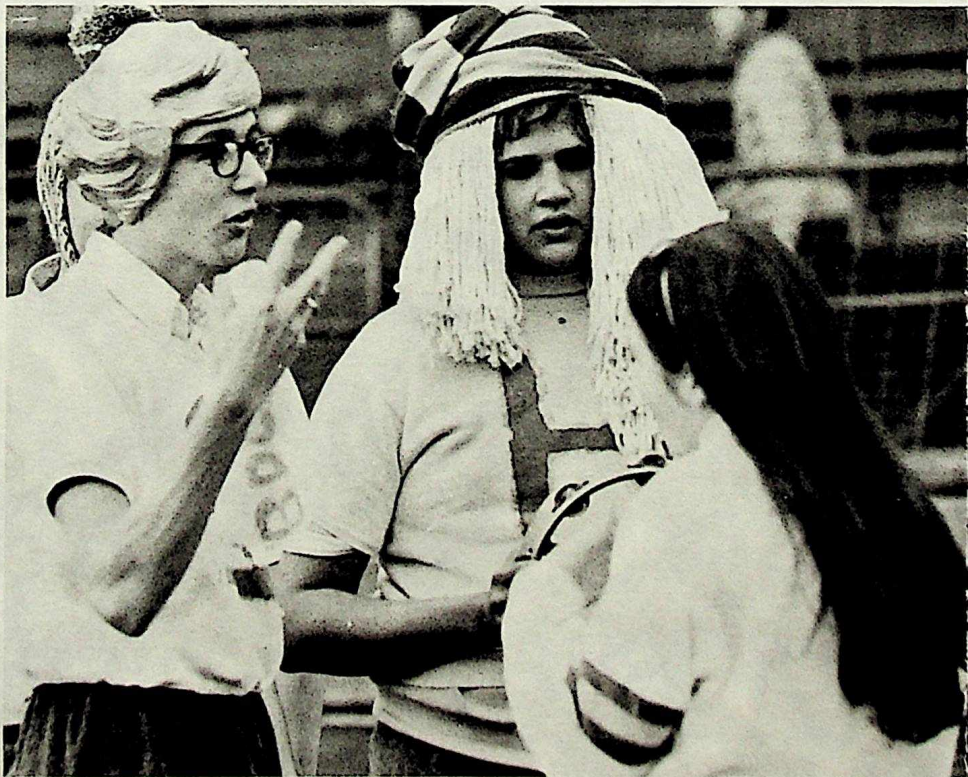

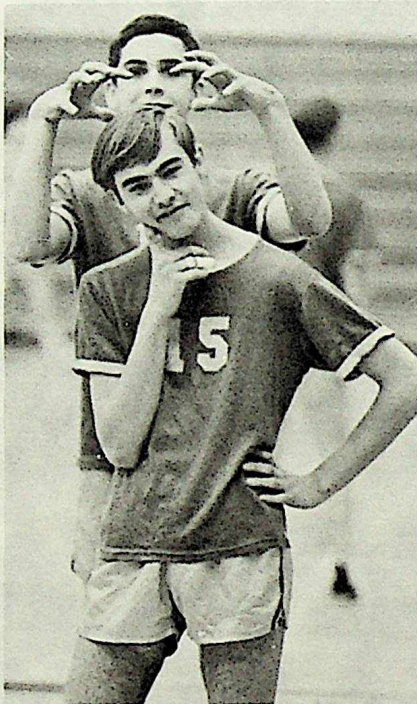

You can always tell a frosh --
By the way they avoid your touch.
Yes, you can always tell the frosh --
But you can't tell them much.

We love you Lancers,
Oh yes we do,
We love you Lancers,
And we'll be true.
When you're not near us,
We're blue.
Oh Lancers, we love you.

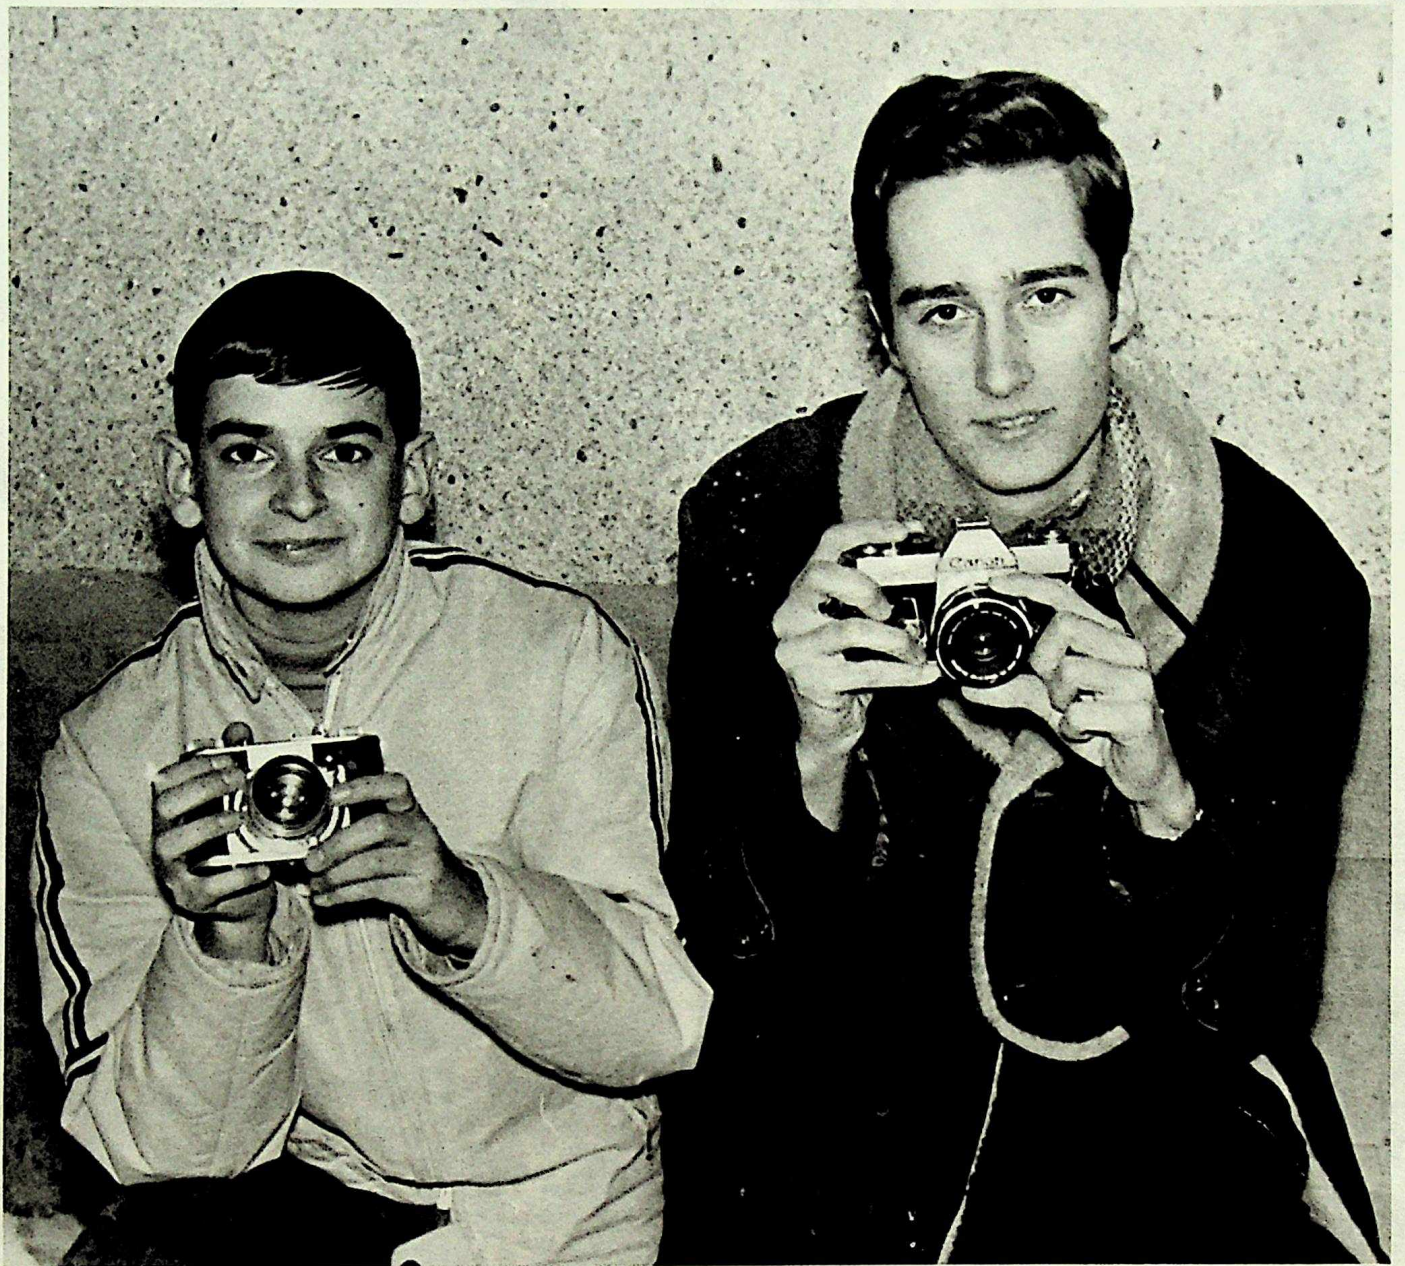

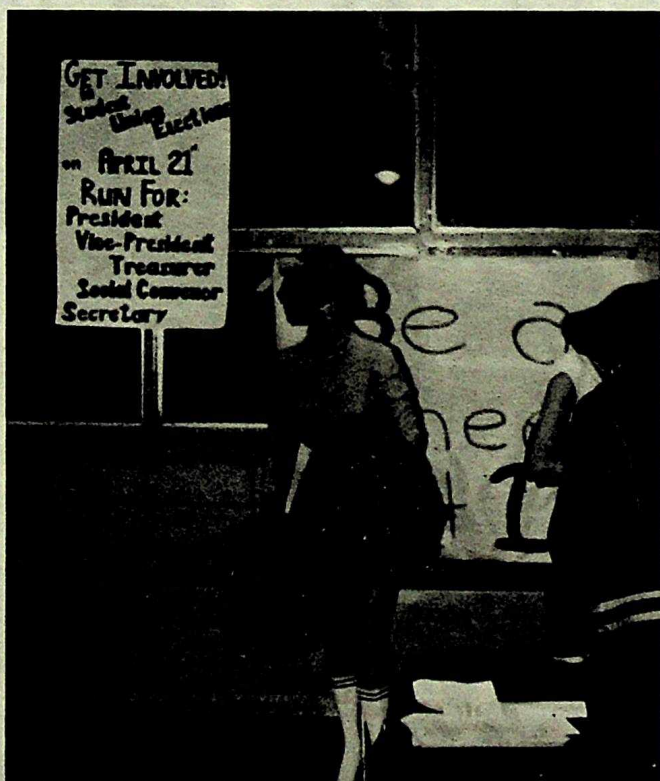

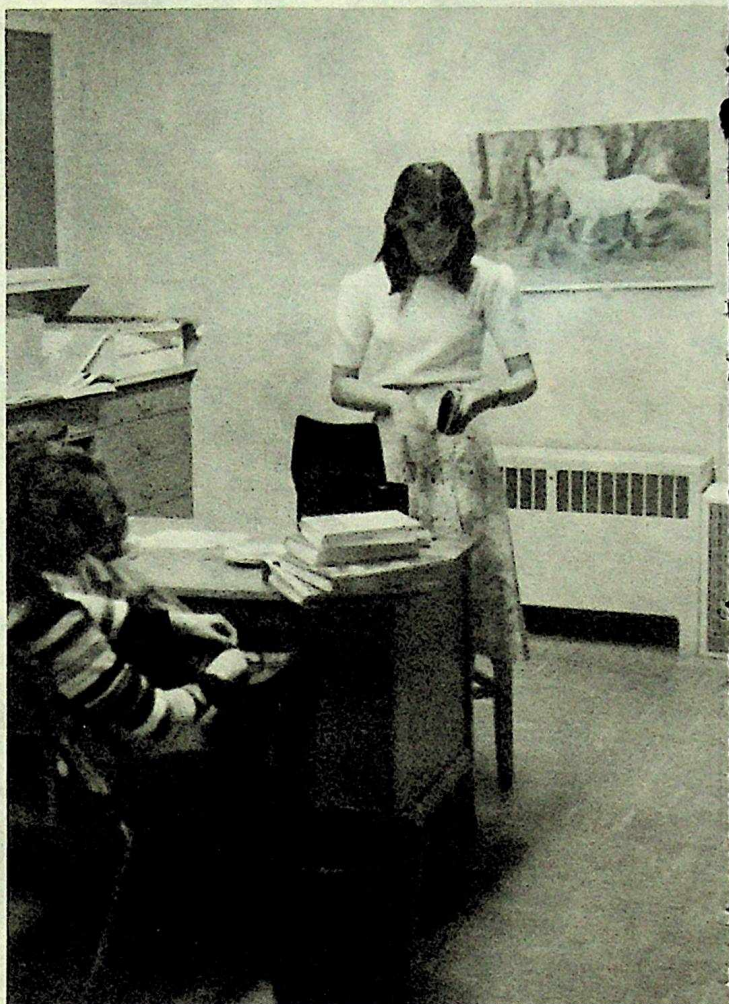

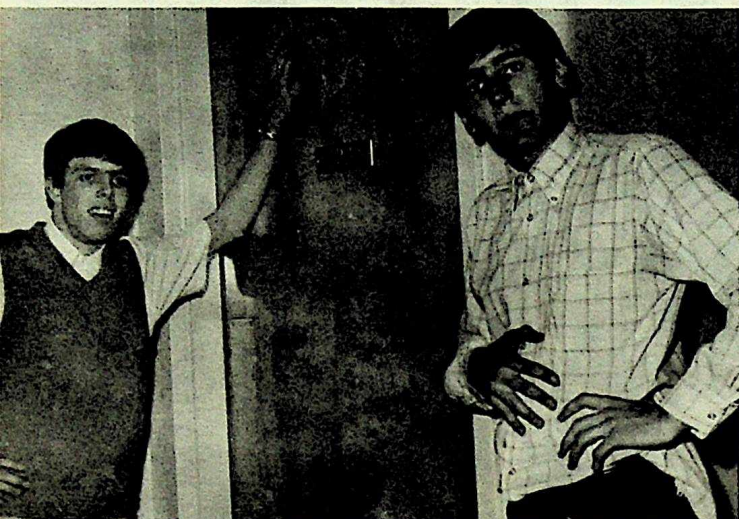

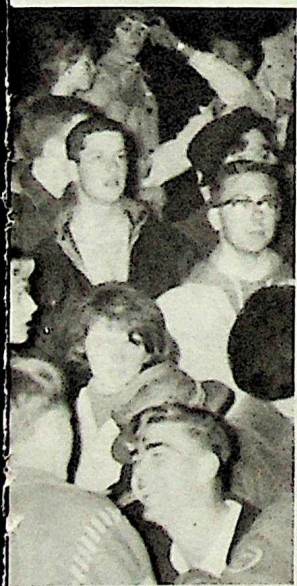

Throughout the years, Bonnie Doon has had numerous clubs and activities. Some of the clubs in past years include: The Glee Club, The Dance Club, and The Debate Club.

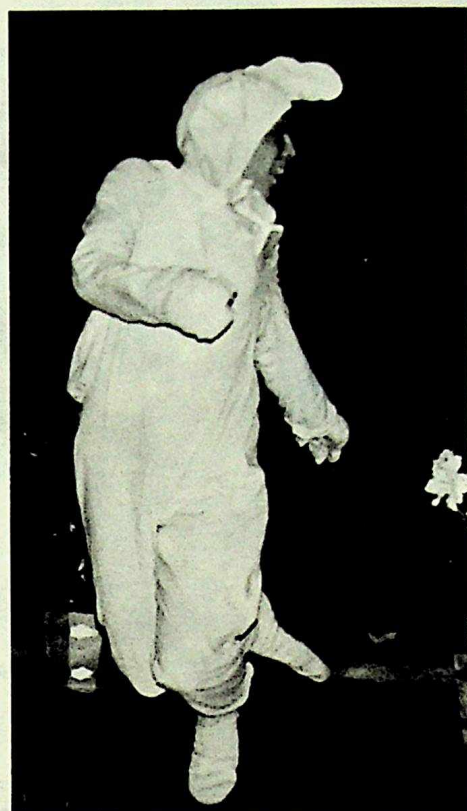

Activities have ranged from dances (all types) to Spring or Winter Carnivals.

STUDENTS UNION

PRESIDENT'S MESSAGE

The role of Student Government is generally a hazy one, and although it might have seemed as if we were treading through unbroken territory in some of our exploits, the fundamental functions and activities were carried out to, I hope, a satisfactory level.

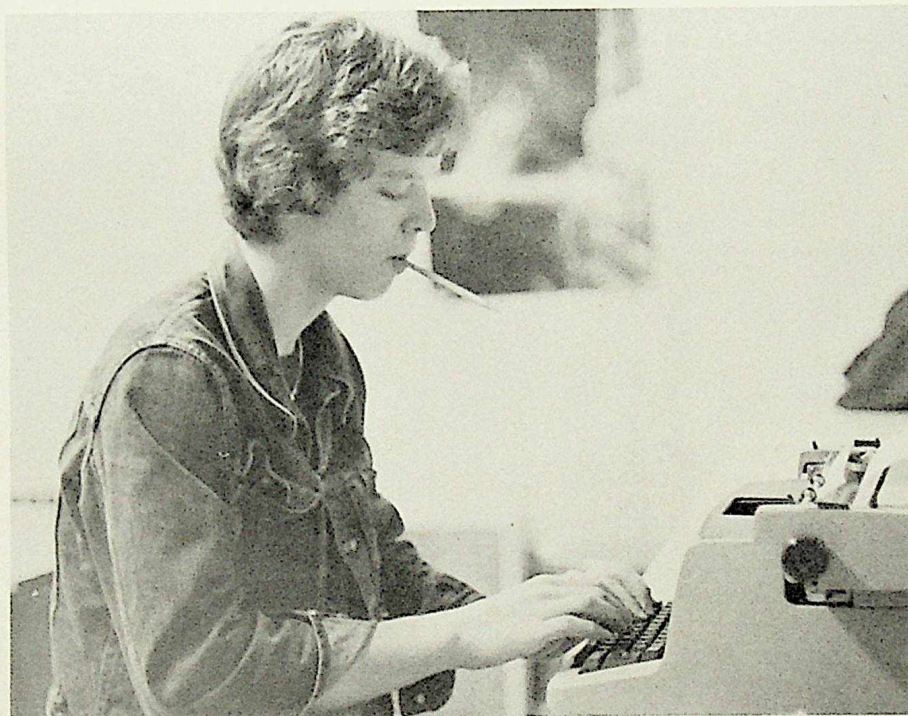

This year was not without its problems and, certainly, disappointments for some. This can only be expected, though not necessarily accepted, in a school of this size and, consequently, varying beliefs and values among the many students.

Though not the most difficult time in life, I believe the High School years should be treated with a certain amount of seriousness, mixed with the fun times to make it a worthwhile and enjoyable period of learning.

Participation and involvement are directly proportional to and run concurrently with enjoyment and self-satisfaction and I know that all those who helped in running the Students' Union successfully gained from their experiences and will know better next time not to get involved in the confusion.

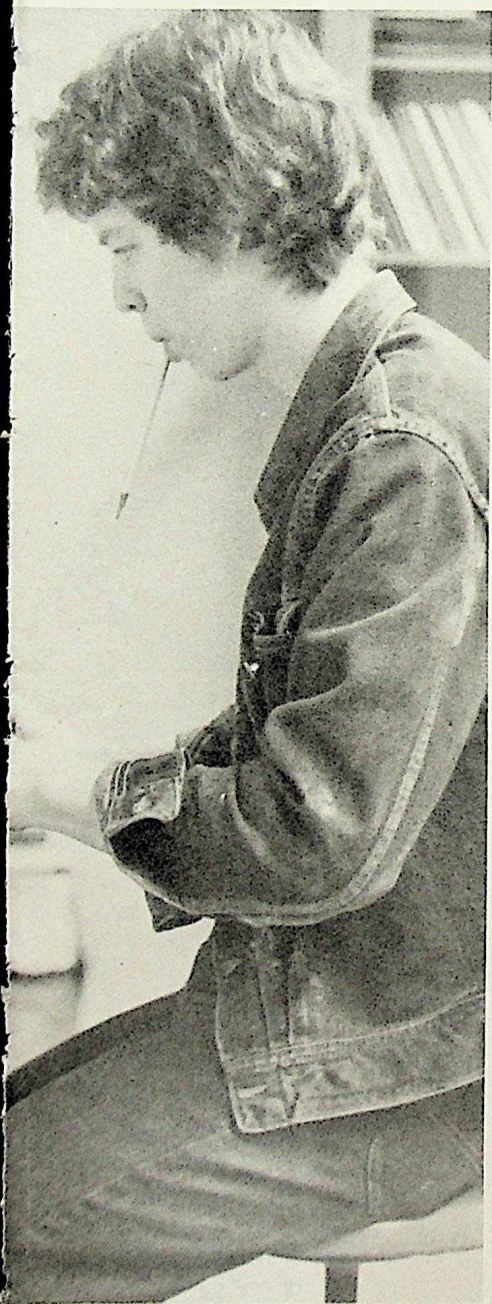

All in all, I sincerely believe that each student can honestly feel proud and assured of having a successful year at Bonnie Doon in '78-'79.

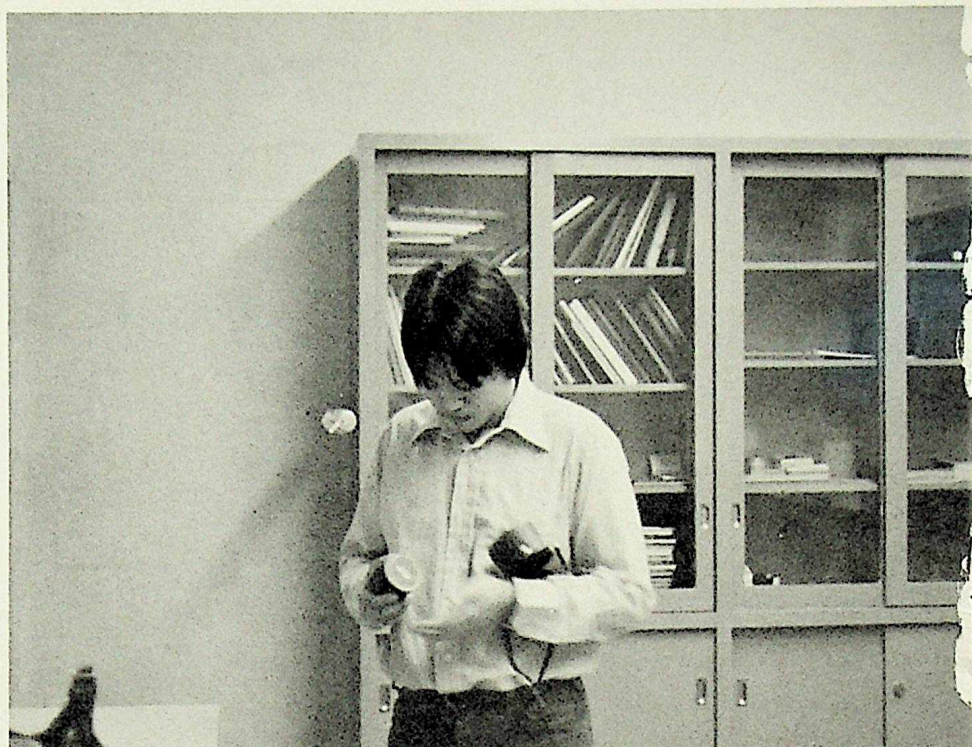

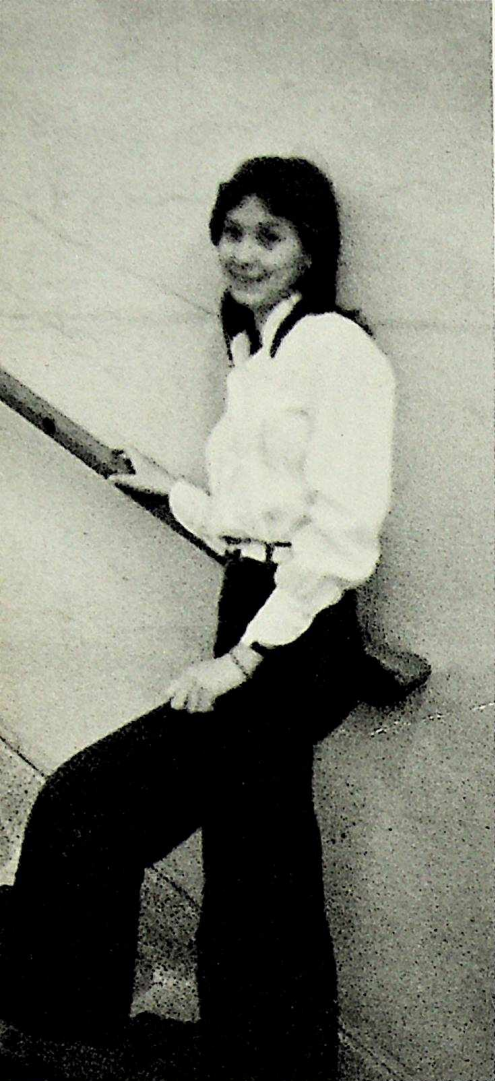

John Turtle
Students' Union President

Our Thistle staff had only 2 people on it this year. Ken Dentzien and Barry Moline. A lot of work went into every issue that came out. Between the two of them they put out an interesting paper. Good Work!

EDITOR'S MESSAGE

I wish only to say what every other Yearbook Editor's had to say - It has been a terrible learning experience for me. Without the help of some of my good friends I would never have been able to complete this yearbook. It is impossible to name all those good people, but there are some that need mentioning. Without the help of my co-editors, Melanie Windwick and Sylvia Reich, this yearbook would have had difficulty in meeting deadlines. They were always there to help. A special thank-you to Mr. Koehler and Mr. Johnson. Without them around to guide me, this yearbook may not have been finished. I must not forget Mr. Klufas (RIP). This yearbook would have had no meaning to me, except for RIP always finding something interesting to put in this special 20th Anniversary Yearbook. An especially warm thank you to Stephen Lee, chief photographer, pictured above. Good luck to you all in future endeavors. Thank you all.

GRADS

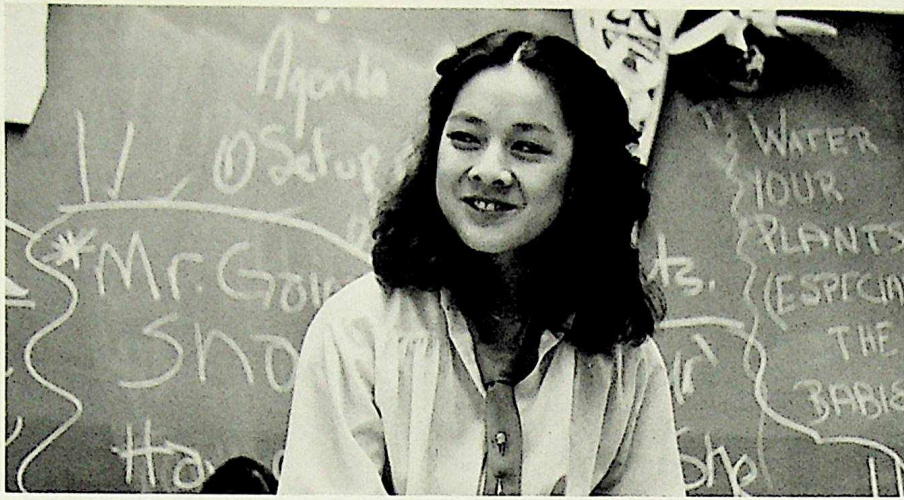

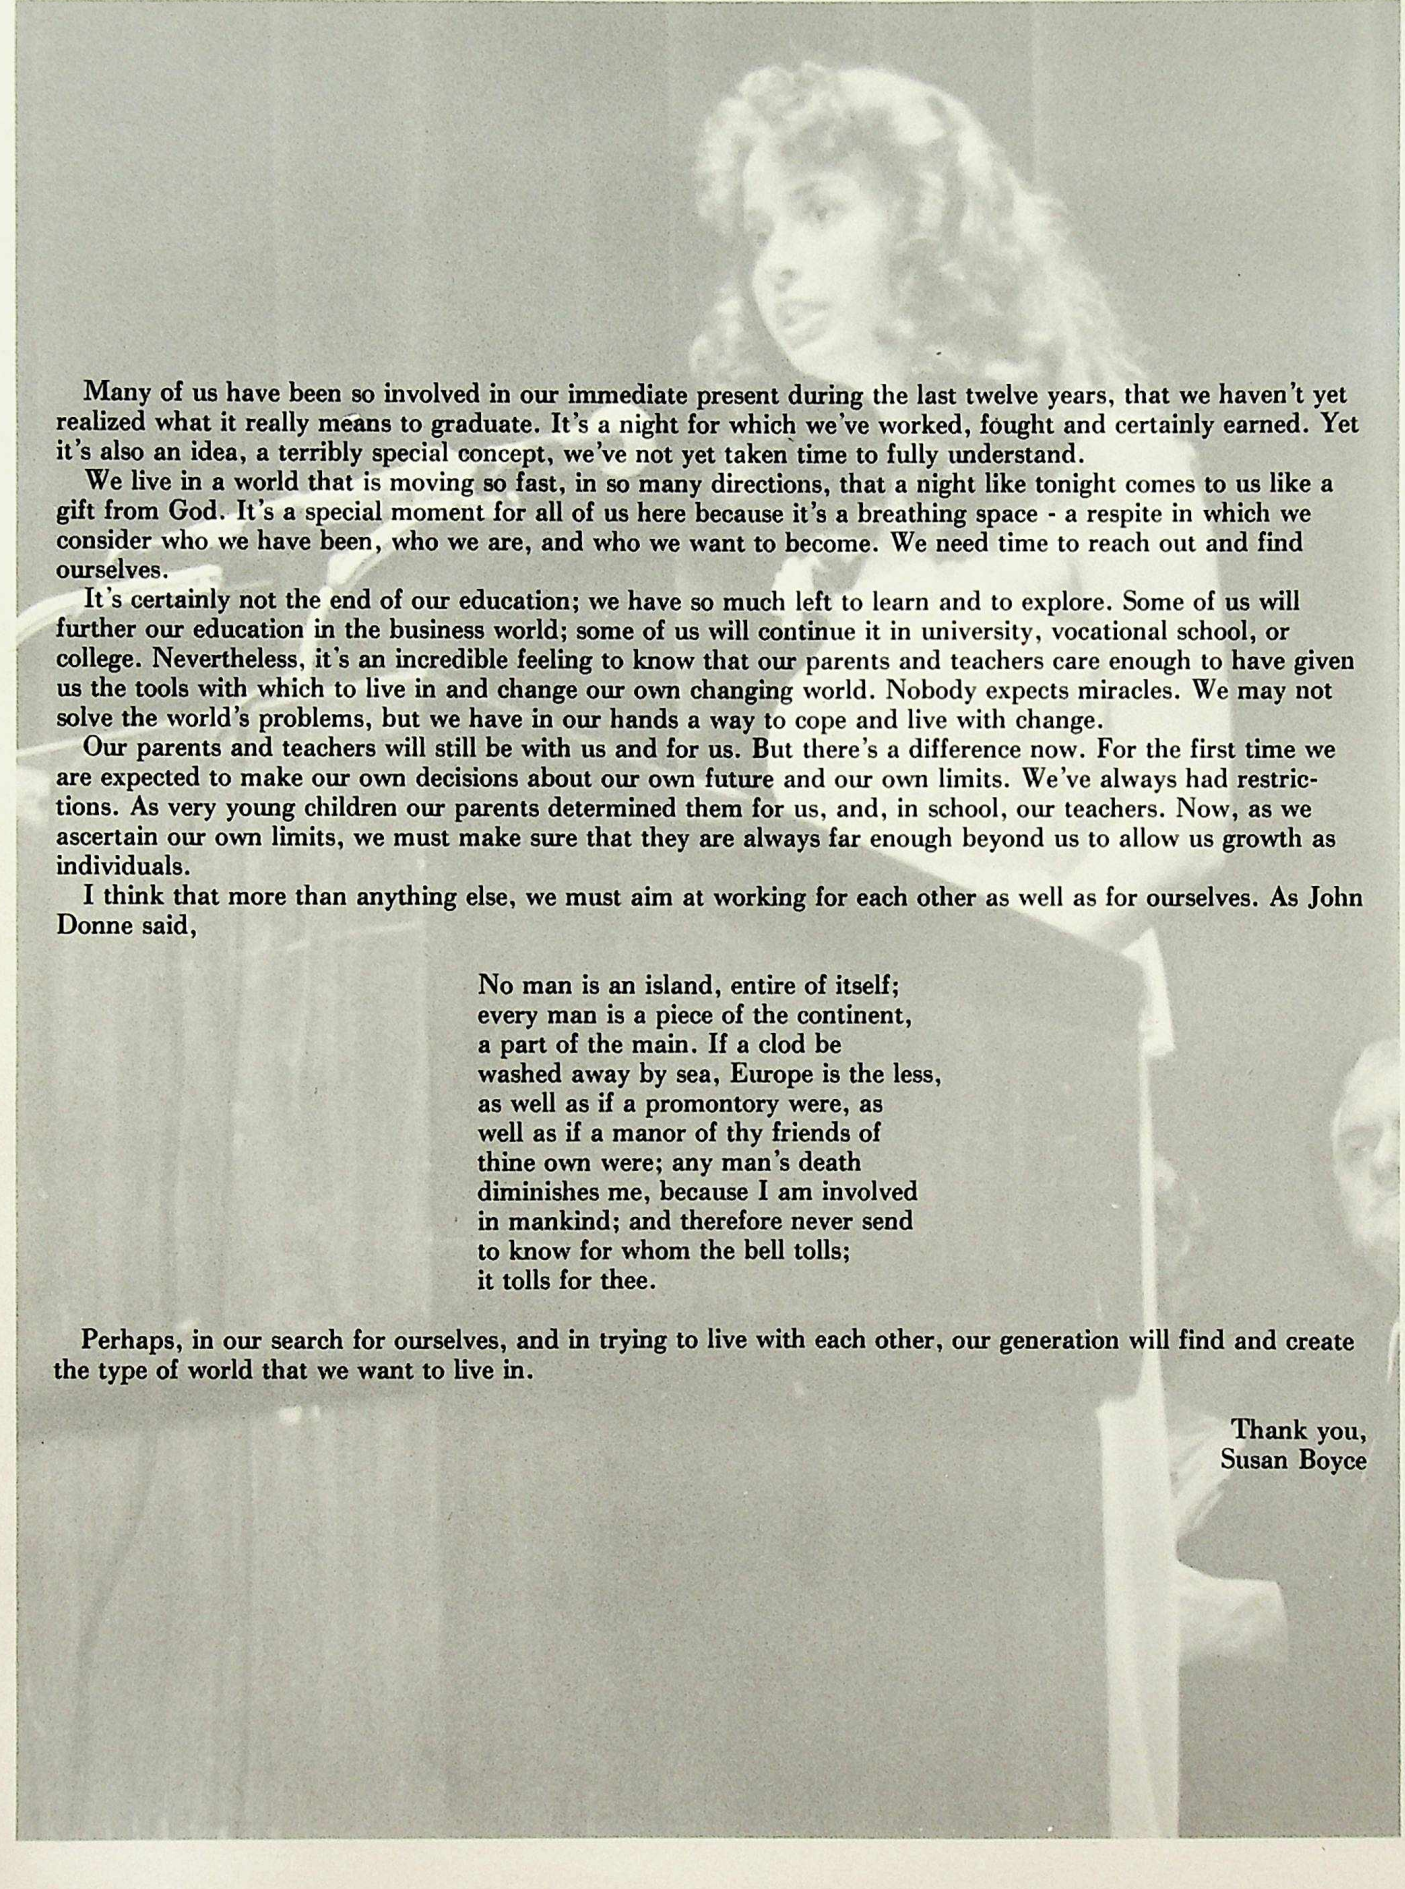

GRAD EXECUTIVE

Grad President-
John Styles
Vice-President-
Holly Harnack
Treasurer-
Fah Mah
Secretary-
Karen Penschke

I would just like to say that this
years Grad Executive did a good
job. Thanks.

Many of us have been so involved in our immediate present during the last twelve years, that we haven't yet realized what it really means to graduate. It's a night for which we've worked, fought and certainly earned. Yet it's also an idea, a terribly special concept, we've not yet taken time to fully understand.

We live in a world that is moving so fast, in so many directions, that a night like tonight comes to us like a gift from God. It's a special moment for all of us here because it's a breathing space - a respite in which we consider who we have been, who we are, and who we want to become. We need time to reach out and find ourselves.

It's certainly not the end of our education; we have so much left to learn and to explore. Some of us will further our education in the business world; some of us will continue it in university, vocational school, or college. Nevertheless, it's an incredible feeling to know that our parents and teachers care enough to have given us the tools with which to live in and change our own changing world. Nobody expects miracles. We may not solve the world's problems, but we have in our hands a way to cope and live with change.

Our parents and teachers will still be with us and for us. But there's a difference now. For the first time we are expected to make our own decisions about our own future and our own limits. We've always had restrictions. As very young children our parents determined them for us, and, in school, our teachers. Now, as we ascertain our own limits, we must make sure that they are always far enough beyond us to allow us growth as individuals.

I think that more than anything else, we must aim at working for each other as well as for ourselves. As John Donne said,

No man is an island, entire of itself;
every man is a piece of the continent,
a part of the main. If a clod be
washed away by sea, Europe is the less,
as well as if a promontory were, as
well as if a manor of thy friends of
thine own were; any man's death
diminishes me, because I am involved
in mankind; and therefore never send
to know for whom the bell tolls;
it tolls for thee.

Perhaps, in our search for ourselves, and in trying to live with each other, our generation will find and create the type of world that we want to live in.

Thank you,
Susan Boyce

In the fall of 1976 many of the graduands I see before me tonight entered the enormous Educational Institution of Bonnie Doon for the first time. We wandered perplexed, the spacious dimly lit hallways for the first week and one half. In that time we walked light on our toes and shuddered at the utterance of a single word, "Frosh".

Before we knew it football was upon us. To many of the fans this meant the introduction of the twelve and twenty-six ounce friends. The majority of them didn't see the Senior Lancers come second in the cities. In '76 volleyball was not what it used to be, but still admirable. Basketball, well, it was a building year for the boys, but the girls made it to the provincials.

In the fall of '77 we once again populated this Learning Institution, now unafraid and eager for the after-school activities.

The fans of the '77 Lancers were veterans now, and it seemed that less were able to see the Lancers come up number two on the gridiron for the second straight year. Boys' volleyball had a semi-successful campaign, finishing third. In basketball, this was the year to remember. We had a good team who finished second and went on to the provincials. We saw an increase in fan support for sports other than football.

In this our Graduating Year our Lancers came out with fire in their eyes. They didn't want to stop short of number one. With a bang they were off. They defeated Harry Ainley for the first time in six years. But when the smoke cleared we were number two again. The boys volleyball and basketball teams gave their best but this year their best wasn't good enough. Girls' volleyball was a different story. The girls played well and made it to the semi-finals. There was also an excellent achievement in girls' soccer and they won the city championship. A team in which nobody knew existed till this year had a splendid season, that's the Rugby Team. They made it to the semi-finals.

When we speak of school excellence, one must not forget the high standards that have been upheld by the music and drama departments.

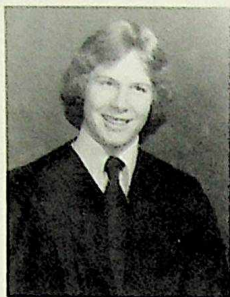

The reputation of the music department was outstanding before we walked down the hallowed hallways. The '76-'77 Stage Band was the cream of the crop for our years here. They were Alberta's best and the third best in Canada. They were only a small part of the department which included choirs, ensemble and the Concert Band. This year's Stage Band went to California to bring more recognition to the school when they played in Disneyland. Those who made the trip enjoyed themselves immensely.

In the three years we have been at Bonnie Doon the Drama Department performed adeptly. In our grade 10 and 11 years the major productions were the BOYFRIEND and DAMES AT SEA, both of which were musicals. In grade 12 the play was the MATCH MAKER. Everyone who saw these plays realized what effort was put into them. The department should be commended on their effort as well as their direction of the plays.

All of the things that I have mentioned were memories for us, but they are only half of the memories we will take with us when we leave. There are the little things like: skipping class to sit in the cage, or the time you got stung by a bee on your Biology 20 field trip. How about the savage attacks by Mr. Klufa's cane and you'll remember the dances you couldn't remember. How could anyone forget the fan buses, or on the freezing October night when that daring young man bared himself to the crowd. Names like Malmac, Larry Lava and St. Marshall will live on in our minds.

With this our graduating year we do not graduate alone, with us graduates our Principal and friend Rip Klufas. In closing I would like to thank the Administration and Teachers. A special thanks must also be given to the parents who with their support have made our three years at Bonnie Doon worthwhile.

Thank you,
Blake Dermott

YEARBOOK MESSAGE 1979

As at 30 June 1979 I am retiring from teaching; service to the youth, and to my country, has been my life. I am not retiring from life and I shall dearly miss the miracle of the young mind creating.

Faith in the future generations gives me a quiet confidence. I know, young ladies and gentlemen, that you have the good sense to learn from the past and that you have the imagination and ability to select the best of today and forecast the inspiration for the future; but none of this can happen unless you are learning to know yourself.

I also know that your parents, your community, your teachers are helping you to know yourself. This you may not recognize now - but give it a few years.

This year we are celebrating '20 Green and Golden Years of Bonnie Doon High School Graduands'. Your yearbook is very special - produced by very special people - my appreciation to the yearbook editor, her staff and the teacher advisor.

To the teachers, through the years, your dedication to the teaching-learning process and your professionalism has done Bonnie Doon proud.

GOD Bless You All.

WITH OUR GREATEST SYMPATHY WE WOULD LIKE TO DEDICATE THIS POEM TO
MARIKA ALICE RYKEE AND KATHY MARLENE CHAMBERS.

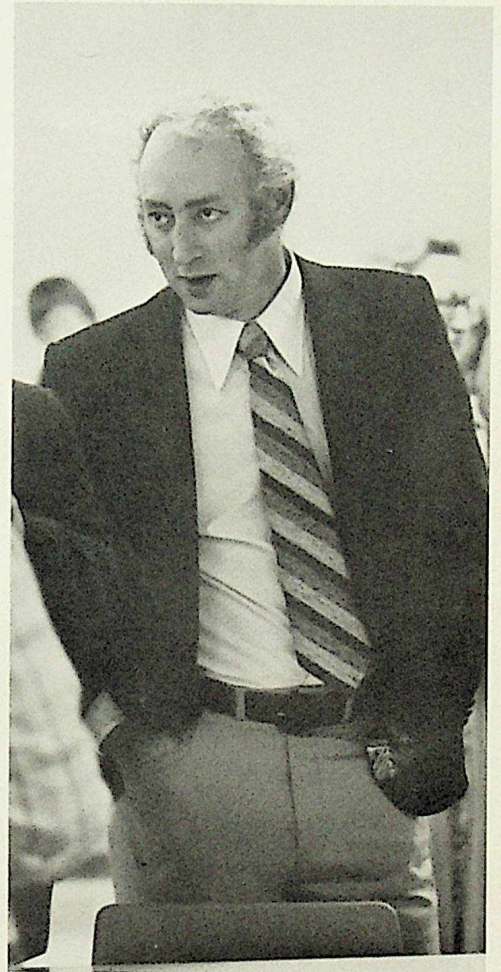

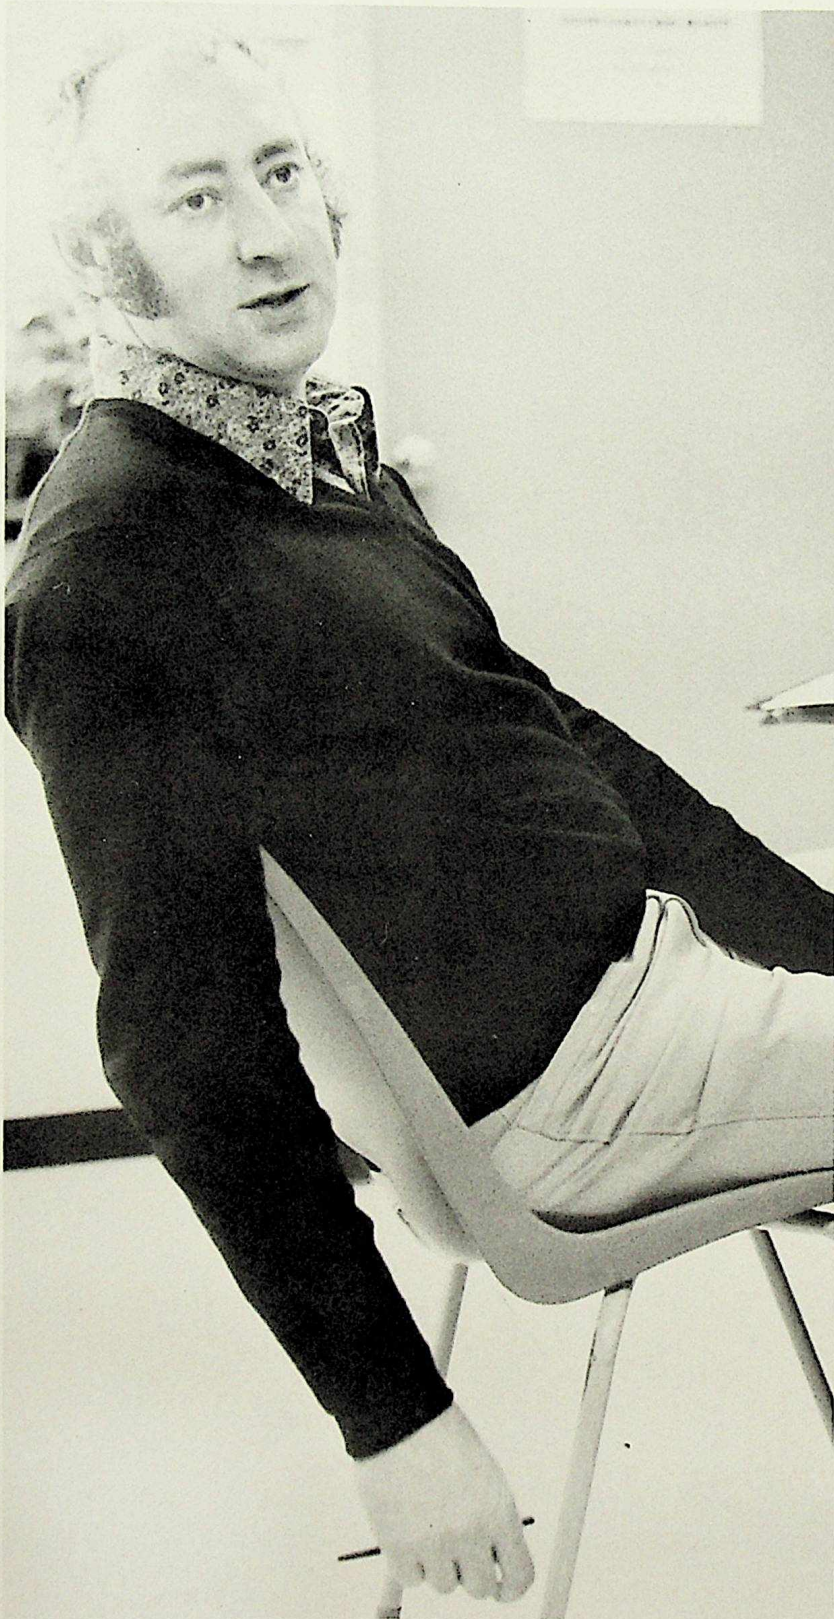

MARIKA

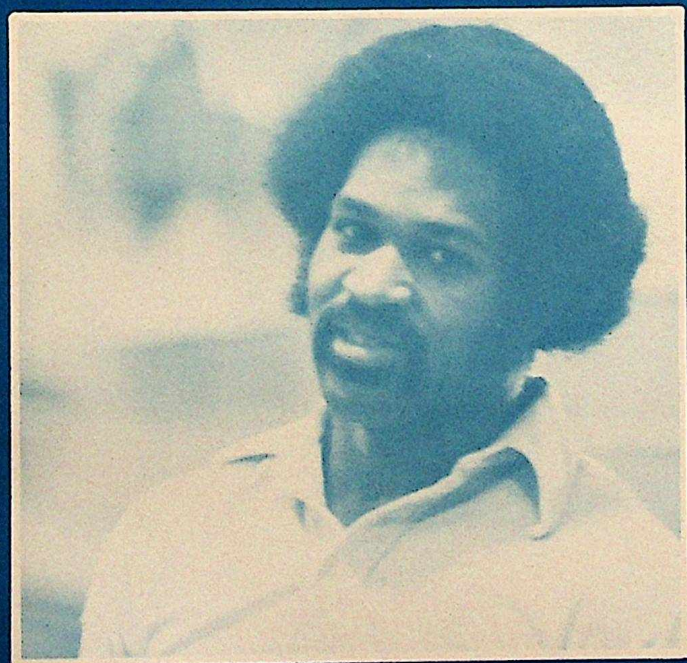

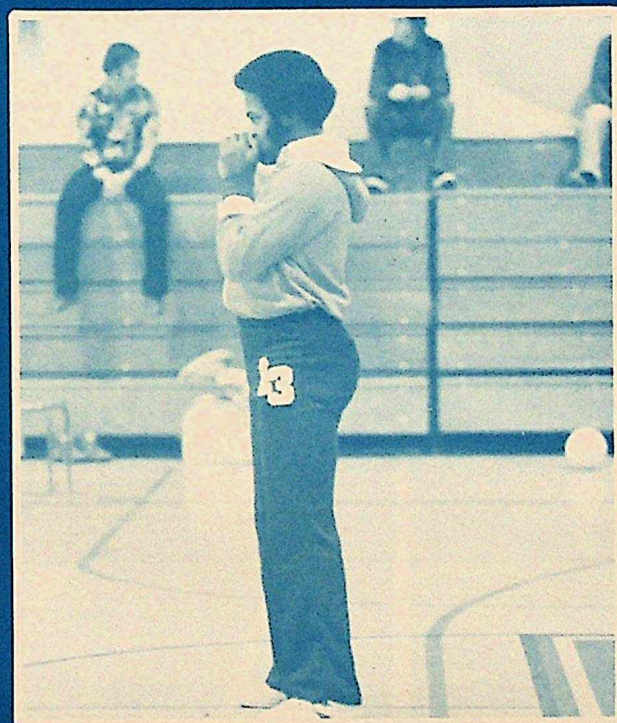

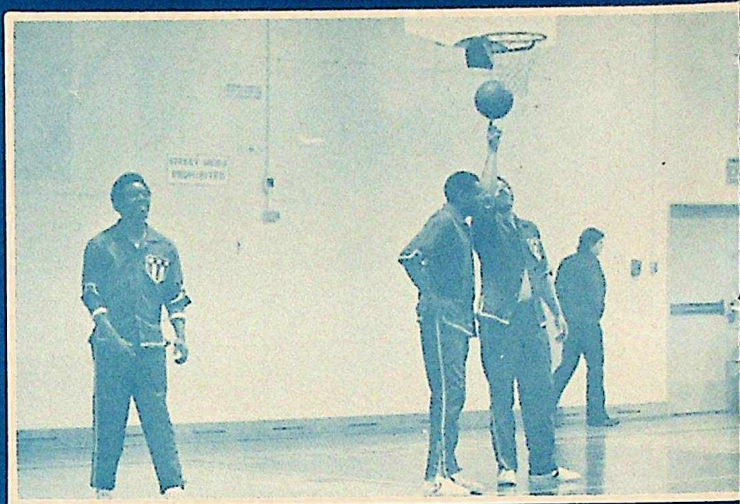

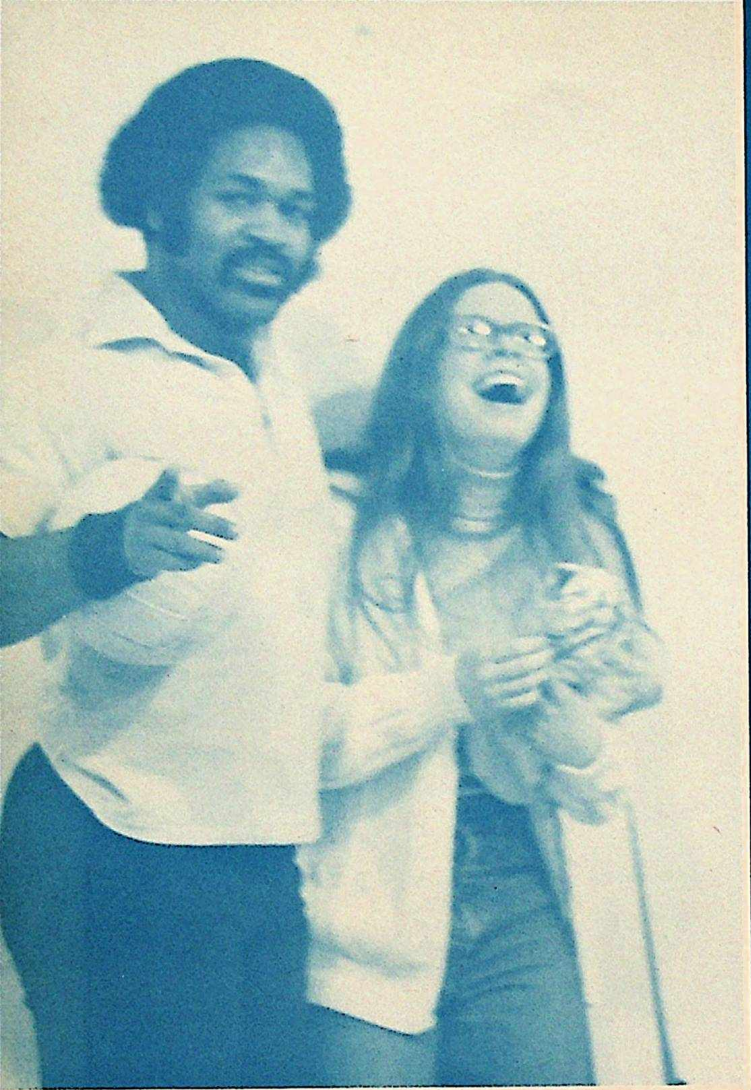

CATHY

On this day,
Mend a quarrel,
Search out a forgotten friend,
Dismiss a suspicion and
replace it with trust,
Write a letter to someone
who misses you,
Encourage a youth who
has lost faith,
Keep a promise,
Forget an old grudge,
Examine your demands on
others and vow to reduce them,
Fight for a principle,
Express your gratitude,
Overcome an old fear,
Take two minutes to appreciate
the beauty of nature,
Tell someone you love them,
For you may never have
another chance.

We would like to express our appreciation for all the help Mr. Fred Gainer has done for the students' council and the graduation executives. He has helped the students of Bonnie Doon for a number of years and has now decided to let another teacher help out. Thank you very much Mr. Gainer.

AUTOBIOGRAPHY OF W.J. KLUFAS

Born in Radway, Alberta in 1915 with the help of a midwife. Finished High School there and attributed his passing and interest in life about him to his two parents and their prayers and two teachers Mr. Shaul and Mr. Pilkington. Attended Edmonton Normal School in 1935 and became a teacher holding a first class certificate. After three months of attempted teaching, decided that he was a failure and asked Mr. LeBlanc the Inspector to have him taken away from teaching; was coached by LeBlanc to stay teaching and to look at himself every evening, asking himself which kids he had hurt and to correct the hurt immediately tomorrow.

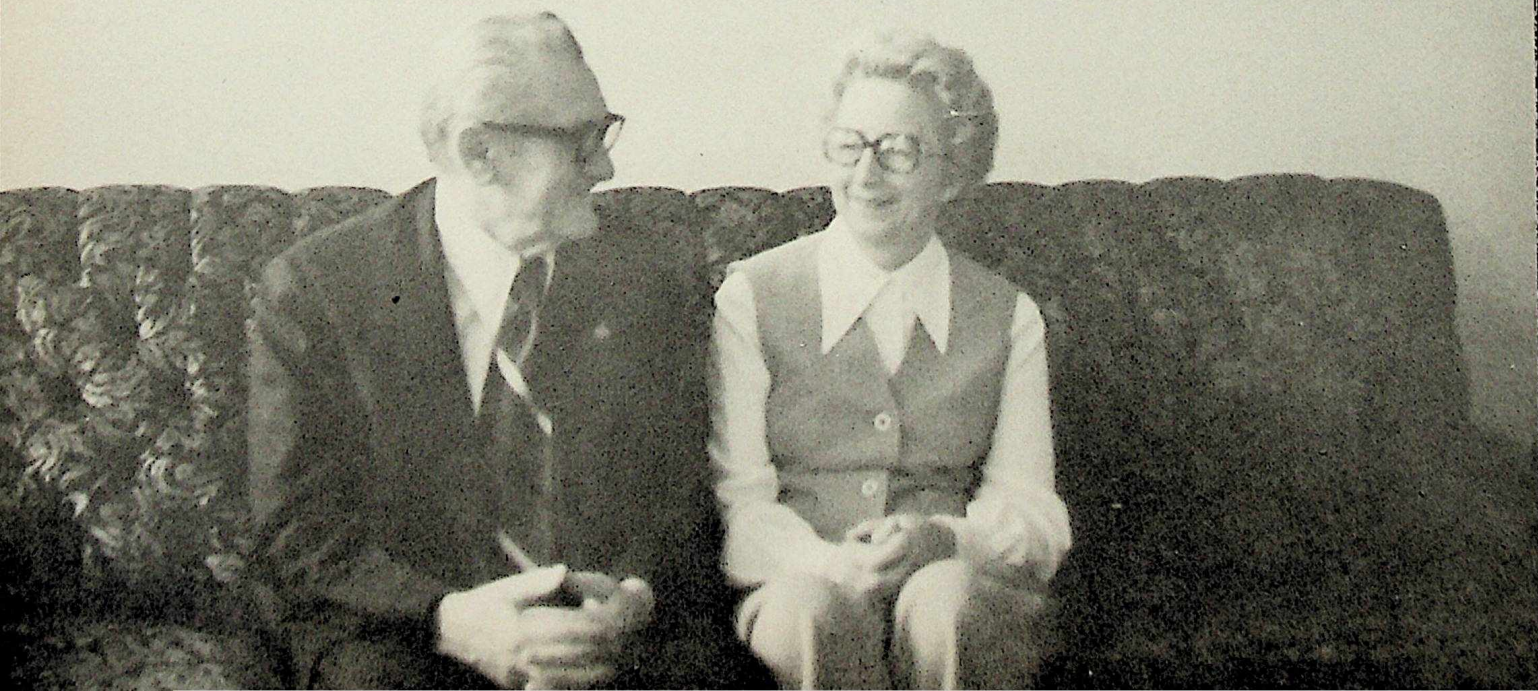

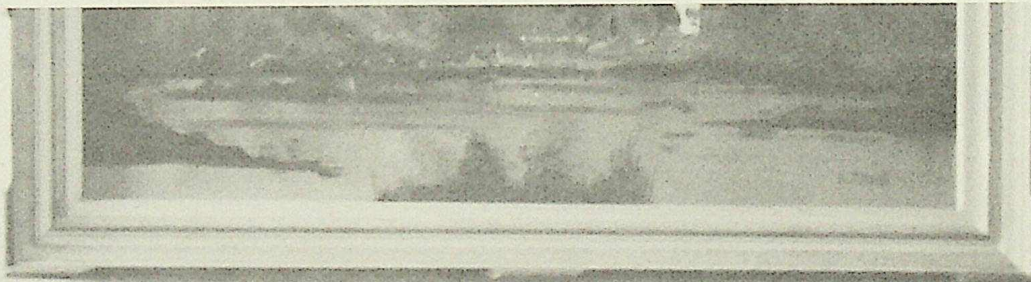

Served in the RCAF, seconded to the RAF and did tours of bombing operations over Europe. Decorated by the King, received Distinguished Flying Cross, and reached the rank of Wing Commander.

After the war went broke in mink ranching, then went to the U of A and took a degree of BS in Agriculture, then completed a BEd.

In 1946 and 1947 while mink ranching, organized the Thorhild School Division and was first chairman.

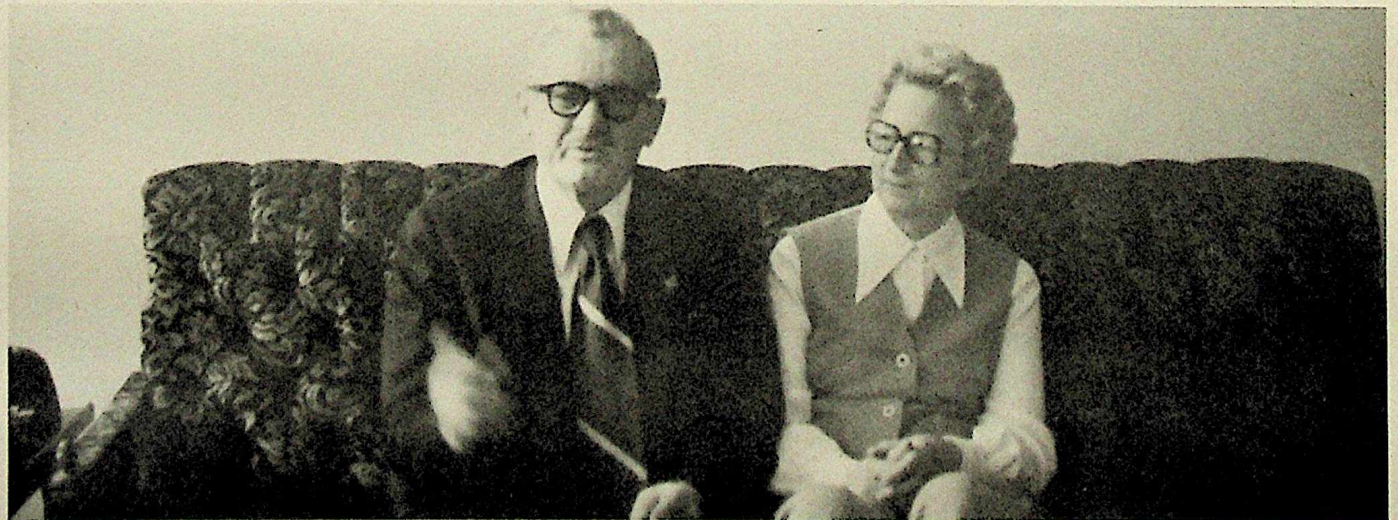

Teaching Experience - Taught grades one to nine, all children; taught grades 10, 11, and 12, all students and all so called courses. Principal of too many schools to mention.

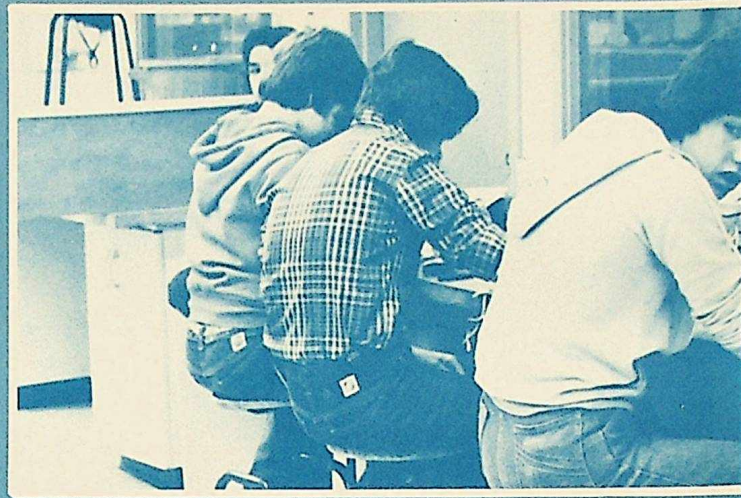

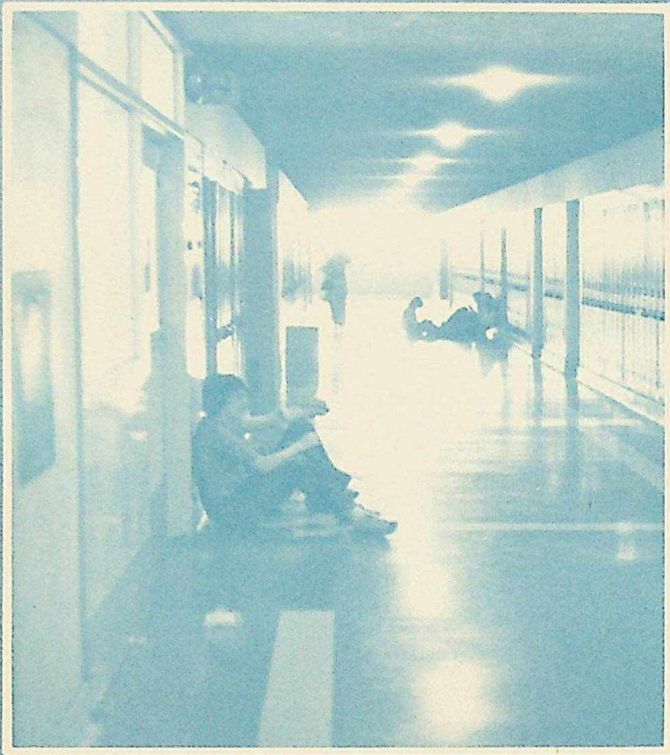

Is married to his first wife and she keeps a home for three boys and a man who often acts like a boy. He is not an angry young man, but he is an angry old man.
